

Selmaville C.C.S.D. #10 Permit to Give Tylenol at School

In order to comply with the guidelines recommended by the Illinois Department of Public Health and the Illinois State Board of Education, we need the written permission from the parent/guardian to administer Acetaminophen (Tylenol). The intent of these guidelines is to reduce the number of medications given in school, yet assure safe administration for those children who require them.

Authorization for Release and Exchange of Confidential Medical Information

I hereby grant my permission to Selmaville Grade School to exchange and receive confidential medical information with my child's physician, county health departments, other schools my child has attended, and any hospital or clinic where my child has been a patient. I understand that my permission covers the release of permanent and temporary records, as well as the release of confidential records. I further understand that this release will expire one year from the date of my signature. I may cancel this authorization at anytime by submitting a written request to the school.
